- Attack on oil installations at Saudi Aramco pushed markets on backfoot. Nifty ended 72 points lower at 11003
- It could be much worse for the markets but for the buying at lower levels, the index managed to stay above 11000. for last four days, the index is trading almost at same levels as events dictate the goings.
- But 10950 providing strong support, it looks like that the index could see a minor surge towards 11050-11100 range again tomorrow.
- 10950 has emerged as a make or break level in the near term. If that gets violated, more downside towards 10850 is expected.
